Results

2 / 3

Good instincts — a bit optimistic on macro impact.

Glance will show clearer causal links and receipts when uncertainty is high.

BREAKDOWN

Q1: AMD bond Correct

Refinancing is typically neutral for equity holders

Q2: NVDA earnings Correct

Beat + guidance = high confidence upside signal

Q3: Fed yields Review

Your exposure to rates was smaller than estimated

Common bias: recency

Big headlines can feel urgent even when exposure touched is small.
